

### Society of Biological Sciences and Rural Development

Society of Biological Sciences and Rural Development is registered under the Society Registration Act, 1860. The Society aims to undertake research development and extension activities particularly in the field of biological sciences and rural development. The ultimate objective of the society is economic improvement through the transfer of scientific technologies in rural areas. The Society would like to fulfil its mission through publication of research journals, original research papers, review articles, popular articles, news bulletins and extension pamphlets in the above chosen field. It also intend to invite eminent scientists to deliver talks on various aspects for spreading technologies on ground level.
